

How to install Audacity audio editing software on your computer

Installing Audacity on a Mac

1. Open your web browser and go to <http://www.audacityteam.org/download/mac/>
2. Download the *Audacity 2.3.3.dmg* file. The current version (as of 22 April 2020) is version 2.3.3.
3. Go to your *Downloads* folder. Drag the *Audacity* icon to the *Applications* folder.
4. The software is now installed and ready to use.

Installing on Windows

1. Open your web browser and go to <http://www.audacityteam.org/download/windows/>
2. Download *Audacity 2.3.3 installer*. The current version (as of 22 April 2020) is version 2.3.3. (If you do not have administration privileges on the computer, download the zip folder instead.)
3. Click on the icon of the downloaded file to install it.
4. Select *English* as the language.
5. The set-up wizard will now start. Select *next* to continue.
6. Select *next* on the information window.
7. The default installation location should be fine. Select *next*.
8. Create a desktop icon to make it easy to launch the program during the workshop.
9. Select *finish* to end installation of Audacity.
